

LEARNING AT HOME

LIVE ONLINE LEARNING TIPS FOR STUDENTS

1. Find a quiet and comfortable space where you can work:

A table, countertop or desk is better than a couch or bed.

2. Be on time:

You should login at least 5 minutes before your session begins. If you are unable to attend the scheduled session, a video of the lesson will be uploaded for later viewing.

3. Dress appropriately:

Uniforms are not required, but we do expect you to dress appropriately for learning.

4. Mute your microphone when you're not speaking:

Although you may not be speaking, microphones on devices can pick up background noises such as coughs, whispering and typing.

5. Be respectful of your educators and classmates:

You are expected to behave as you would in the classroom, including using appropriate language and interacting positively with your classmates and educators.

6. Using the camera on your computer is optional: Remember, if the camera is on, everyone will be able to see you and what is going on in your immediate area. Consider your background environment before using your camera.

7. Your educator will let you know how questions can be asked: Be sure to take the opportunity to ask questions if you are unclear about something.

8. When the session is over, your educator will ask you to leave the web conference:

Be sure to leave the conference when asked. Your educator will be the last one to leave.

9. Although online learning is not for everyone, try your best: There's important lessons and learning that will happen before school ends. Your educator is here to help you be as successful as you can be. Give it your best shot!

10. Never share your password!

You are invited to read [Policy No. I-43](#) and [Procedure No. VI-62](#) for more information around the Use of Technology and Digital Citizenship.
